

The background of the entire image is a grid of windows, each with light-colored curtains. Most windows are closed, but one window in the middle row, third column from the left, is open, revealing a person in a blue bathrobe standing in a bathroom. Overlaid on the grid is the text '08:00 AM' in a red, digital-style font.

LABOTTEGA®

Beauty will save the world.

We are not talking about art and nature. Salvation will come from beauty that we see every day around us when we are in a good mood.

The day seems brighter than usual, the coffee tastes better, the news are positive. It is the beauty of the little things that we like to spread in your hotel: crystals that dissolve in water, soaps that become mousses, soft and scented creams.

The play of water and its vapors, the rich foams, the cold alternating with the hot: every day is the best excuse to smile at the world.

Here at anatomē, we've developed sleep oils that can be used with a sleep routine to help you get a better sleep. Working with a team of aromacologists and nutritionists, we've concentrated on four oils for a different sleep concern.

Cornish Lavender for tired body and mind  
Somali Frankincense for the overactive mind  
German Chamomile for those that struggle to sleep  
Japanese Seaweed for the light sleeper

#### WHY IS SCENT SO IMPORTANT?

Scent is a powerful trigger that activates our "brain of emotion" known as the limbic system - a network of connected structures near the middle of the brain linked within the central nervous system. These structures work together to affect a wide range of behaviours including emotions, motivation, and memory. This system deals with instinctive or automatic behaviours and has little to do with conscious thought or will. The limbic system also deals with translating sensory data from the neocortex (the thinking brain) into motivational forces for behaviour.

# CARON

PARIS 1904

Founded in 1904, PARFUMS CARON is one of the first Maison de Haute Parfumerie in France.

Its founders, Ernest Daltroff and Félicie Wanpouille had a vision of wild, daring and explosive encounters as well as an asserted fashion style.

TWO OPPOSITE PERSONALITIES IN SEARCH OF FREEDOM & AUDACITY .

Their pronounced taste for opulence made them imagine CARON's perfumes with intense scent trail, always concentrated to the upmost.

Their audacious and unconventional creations brought the brand an international fame.

Narcisse Noir, Tabac Blond, Pour Un Homme de CARON have been described by many as iconic creations.

# L'INVITATION AU VOYAGE

Surprising throughout, L'Invitation au Voyage is a two-part sensory voyage. Act 1 opens with a dose of sparkling, zesty mandarin and bergamot essences, which carry the green, watery notes of the violet leaf. A dash of cardamom spices things up. Absolute freshness! Act 2 starts with a ballet of warm notes. Between orange blossom absolute and geranium essence, its opulent floral heart becomes torrid with cinnamon. Enhanced by elegant cedar and guaiac wood, the fragrance is warmed by wreathes of labdanum resin. Enjoy the delicious finale on the skin for many hours!

This Invitation au Voyage is a dual-faceted cologne that combines freshness and sensuality!

# Carthusia

I PROFUMI DI CAPRI

Carthusia

I PROFUMI DI CAPRI

In 2018 Carthusia celebrated the 70th anniversary of the foundation of the brand that more than any other is synonymous with Capri in the world, its colours, fragrances, a generous and unique territory, which it has been able to transform into perfumes.

First for the person, then for the environment, developing several complementary lines, synonymous with a lifestyle that expresses relaxed sophistication. It was in 1948 - the year in which the ancient formulas of the perfumes came to light - that the prior of the Certosa di San Giacomo, under papal license, revealed them to a Piedmontese chemist. It was he who opened the smallest fragrance laboratory in the world in Viale Matteotti, where it is still located today and can be seen between the wooden panels of the perfectly preserved period furniture. Today it houses instruments and machinery made to measure to ensure production efficiency, even though many of the phases are still carried out by hand by specialized personnel. Also in 1948, the painter Mario Labocetta brought together in the Liberty image of the floral mermaid, which immediately became the company's emblem, the key elements of Capri's classical heritage, including surrealistic suggestions and mythological hints. A multitude of colored flowers - the same ones from which Carthusia perfumes are descended - is released freely in the game of metamorphosis, an immediate expression of the perfect balance between art and nature, creativity and method.

# PUNK MOTEL

Bright, delicate but at the same time of character, enveloping. The light of bergamot and white rose petals are “dirty” with salicylates that add a slightly salty appearance without marine scents, but like the wind that comes from the sea and crosses the desert. The bottom is extremely enveloping, musks and vanilla round off the fragrance, linked together by the character of ambrette to create an accord that does not go unnoticed.

# CULTI

MILANO

CULTI MILANO was born of an intuition from the eclectic mind of Alessandro Agrati: namely his perception, which was incredibly ahead of its time, that spaces and objects might have their own scent too; that it was possible to surround oneself with olfactory quality, in addition to beautiful things in pleasant rooms. It was 1988 when Agrati embarked upon his personal research into the link between the design world and the world of the senses, something that would revolutionise the very way in which people experience spaces and objects.

“The idea of creating a Culture of ambience, which incredibly enough was lacking in our world, in this era”.

This inspired the name CULTI MILANO. The project, interweaving culture and style, has over the past 30 years followed a carefully-crafted creative pathway, leading it to become a brand with a distinctly personal spirit. Personal like culture, which is moulded from our everyday experiences. Personal like a scent, with the power to conjure up memories.

For indeed, CULTI MILANO is much more than a home fragrance.

“CULTI MILANO is the opportunity for a person to choose their own fragrance, which will accompany them in their homes and in their life”.

# ARAMARA

Aramara is the result of an afternoon spent in the kitchen of a Sicilian pastry chef who summoned his skills to reveal the countless secrets of bitter orange. Formulated like a product of haute patisserie, Aramara is a gourmand fragrance: its intense and citrusy top notes are animated by the delicacy of bergamot and sweetened by a base note of sandalwood.

Once upon a time...

Existed a story of love and friendship that lasted 40 years between Christiane, Yves and Desmond, three transdisciplinary creators from the worlds of architecture, theatre and painting.

Once upon a time, there were three multiskilled idealists, three free and cultivated poets, three aesthetes and artists, who where united by their taste for travel and great civilizations, and a shared sense of beauty.

Once upon a time, three "marchands de rien" (purveyors of trifles) sold only what they loved, what they discovered, redecorated and repurposed in the course of their inspired travels.

Once upon a time, there were decorative items, scented candles and the perfumes – because, ultimately, smells, more than any element, serve as bearers of memory to inspire, and encourage the imagination to wander.

# L'ART DU SOIN

L'Art du Soin is a poetic experience, a sensorial product line designed for the well-being of both the body and soul. The fruity sparkle of bergamot, the tangy zest of green mandarine, and the citrusy, honey-kissed taste of neroli. A fabulous fusion of freshness that awakens the body and stimulates the mind, echoing the invigorating waterfalls of Calabria. The bright scent of orange blossoms, like a morning breeze, refreshes the sleeping skin, leaving it soft and replenished.

# DS&D URGA®

D.S. & DURGA was founded by David & Kavi Moltz.

“We started from scratch and did it our way (more Sid than Sinatra). We were pioneers in the DIY Brooklyn movement and began by turning things we loved into scented stories of cowboys, open terrain, Russian novel characters, and folk songs - all packed into handstamped boxes in our Bushwick apartment. Attention to detail and the importance of human hands are still vital to our process today”.

D.S. & DURGA is one of the only fragrance brands whose perfumer sits at the helm. Our scents evolve from carefully crafted narratives for a sensory experience that extends beyond just smell. Each perfume has stories, photos, films, and playlists. Kavi approaches her work like the architect she was trained to be. Thinking in angles, light, shadow, and texture, Durga seeks clarity in form and function. She builds buildings for our scents, cities for our universe.

D.S. taught himself how to make perfume by completely immersing himself in all things fragrant. He is dedicated to translating musical and literary spaces into scent. Each fragrance is conceived and constructed by D.S. exclusively. Our perfumes are all made in New York City - fragrances formulated in Brooklyn, bottles filled in the Bronx.

D.S. & DURGA aims to create fragrances that live on the level of great music, painting, and literature. a perfume is a world you can return to over and over again — a keyhole into far off places — material and imaginary.

First released in 1989, the ETRO fragrance collection envisages perfumes as an art of the intellect and a striking artisan alchemy that infuses timeless memories with inebriating emotions to become purely sophisticated essences. Entirely crafted in-house, in collaboration with expert maître parfumeurs, the collection features 23 universal blends comprised of eaux de toilettes and eaux de parfumes.

The range further includes the bath line and ambient fragrances – exemplified in green and fuchsia, respectively – for a complete and enveloping olfactory journey to awaken all senses while transporting them to faraway confines and yet unexplored sensations.

In this broad and evocative range, natural ingredients take center stage wafting through zesty spices and lavish incenses towards warm woody notes intermingling with resins, herbs, and citrus fruits.

Exuding the brand's vision of flair and fascination, ETRO's fragrance collection is an immersive and caressing universe to explore, discover, and enjoy every day in ever changing ways. As the newest experience added to this choral narrative extends beyond the customary routine to deliver an inventive ritual of self-expression, different fragrances can also juxtapose and interweave like the precious threads of a beautiful fabric.

# EDEN (UDAIPUR)

Udaipur encapsulates the primary inspirations of the Maison, reinterpreted them through the varied nuances of a fragrance that evokes both summer in the Mediterranean and the gardens of the Maharaja. The Sambac jasmine with its angelic and noble petals represent blessings during nuptial rites, bestowing grace, good luck and romanticism. This fragrance is a hymn to the skill of Italian artisans, to the magic of India and the many connections between these two worlds, which over time has woven a tale of the imagination.

**FLORIS**  
LONDON

In a year that has seen a great deal of change we are proud to say we remain an independent family owned business, and have been for 290 years. Based in the elegant quarter of St James's, Floris is proud to be the standard bearers of perfumery expertise in London. Nine generations of perfume creation has taught us the emotive power of scent and the skill required to create perfumes of unmistakable quality.

Our ancestor Juan Famenias Floris travelled from Minorca to London and married his English Sweetheart, Elizabeth. Together they established a working perfumery which is still in use today.

As the oldest independent perfumery in England, we have developed a sustainable yet innovative approach, long lasting relationships with our customers, as well as finding ethical ways to access the world's most precious perfume.

Made in Britain, using the finest essential oils and essences gathered from around the world. We are proud to add new fragrance creations to the repertoire of our forefathers and be custodians of Floris for future generations.

We have been proud suppliers to the Royal Household since 1800, receiving our first Royal Warrant by a reigning monarch as "smooth pointed comb maker" to HM King George IV.

The perfumer's art can ignite the senses and vividly recall our memories, enriching the most precious experiences in our lives. Creating scents that evoke emotion, make you feel special, or mark an important moment for you is essential to us.

# Fragonard

PARFUMEUR

Parfumerie Fragonard was created in 1926 by Eugene Fuchs. As a tribute to the town and celebration of the elegance of 18th-century arts, he named the new business after the famous royal painter Jean-Honore Fragonard (1732-1806). His choice of name was also an expression of his intention to run the perfumery on traditional lines. That spirit has been steadfastly preserved by the three succeeding generations of the family - which is still running the company.

Because of its wonderful location, Grasse and its surrounds are endowed with very favourable conditions for growing a great many species of flowers and aromatic herbs. With the warm summer sun of the South of France, the mild winters of the abundance of mountain streams, there is an exceptional micro climate.

# ESSENTIALS

Peppermint, Rum, Vitamin B5 and Cilantro are natural perfumes, provided with a single note. They are used for their specific therapeutic properties. Peppermint is used for its holistic benefits and well-known for its stimulating effect on the scalp, as well as for being cleansing and antibacterial. Bay Rum updates its traditional, apothecary origin among the perfumes: it has been a pillar in those environments for centuries. By using it, the modern pharmacist mixes tradition and modernity.

# ORTIGIA

SICILIA

Ortigia is a small Italian soap and scent company founded in Sicily. The luxurious range of soaps, scents, creams, candles and lotions are formulated using natural products indigenous to Sicily and inspired by the aesthetics, colors and scents of Italy's most historic and tropical region. The base of all the products is natural perfume and natural ingredients: olive oil, vegetable glycerine, and organic colours. No SLS, nickel or silicone; products not tested on animals. Paraben free, the range uses traditional products with modern ethics and integrity. All Ortigia products are made by small family companies who pride themselves on the quality of their products.

The name Ortigia comes from the small island that lies at the edge of the ancient fortified city of Siracusa, on Sicily's southeastern coast. The streets of Ortigia are crumbling baroque façades of great splendour looking out on 3 sides to the sea.

There are hundreds of orange & lemon groves – the only place where blood oranges grow – also grapefruit trees, almonds, pistachios, saffron, vines, olives and cactus. The uniquely rich and layered culture that is found in Sicily today, has inspired the creation of the Ortigia range.

Born in Marseille and nurtured from an early age in the gentle lifestyle of Provence, Jérôme Lambruschini grew up in the shade of the cypress trees and mimosas of the Southern Alps region. His grandfather passed down his passion for trees, the vegetable garden and nature. As for his mother, she instilled in him her love for the earth and perfumes. It is from this dual inspiration, both Mediterranean and maternal, that you can find today in every Panier des Sens product, whose first collections came out in 2001. Inspired by the gentle lifestyle of the South of France, the Panier des Sens range of care, toiletries and perfumes illustrates Provence through fragrant and natural collections. The natural formulas benefit all skin types, and abide by a strict formulation charter, always giving precedent to vegetal and organic natural ingredients. The packaging, floral and carefully designed, are also eco-conceived. The ranges of lotions, soaps and perfumes magnify the beauty of Provence through elegant products with subtle textures and delicate fragrances from Grasse.

pure  
ALTITUDE  
soins aux plantes de montagne

The story of Pure Altitude begins in the restful world of the spa at the Fermes de Marie in Megève. By creating an Alpine garden here with a botanist with expertise in mountain plants, Jocelyne Sibuet discovered edelweiss's skin care benefits. This led to the idea of a skin care range that would combine her two passions - mountain lifestyle and beauty.

"Three key words guided me in creating each formula of the Pure Altitude skin care range. First of all, Rarity - that of natural active ingredients extracted in optimum conditions to preserve all their beneficial effects.

Next, Technicity - that of skin care products on the cutting edge of plant-based cosmeceutics, involving intensive cellular regeneration. And finally, Pleasure - that sought by the women I had in mind when I created the range." Jocelyne Sibuet, founder of Pure Altitude.

# FLEURS DE NEIGE

Like an echo to the white of the last snows, the lily of the valley, with its flowery smell, invades us with its green notes of freshly cut grass. As for the broom, it awakens under the softness of the spring, in a delicate fruity scent, mingling with the tonic freshness of an aromatic mountain bouquet: wild thyme, mugwort and rosemary. The musk, in the background, envelops us with its scent of cotton and powder, and releases the comforting scents of clean skin smell.

## ROSSANO FERRETTI

Born into a world of hairdressing, Rossano followed in his family's footsteps and created an empire that is recognised for its premium hair spas and designer haircare products. Rossano's love for hair runs blood deep. As a child, he was influenced by his grandfather, a barber who did house calls on his Lambretta, and his mother and grandmother who ran a small salon in his home village of Campegine. In the mid-1970s, when he was just 15, he went to London to study hair design. His dream was to create a timeless style that would encourage individuals to embrace their unique natural beauty. Over the coming years he travelled all over the world to understand every hair kind and culture to be able to create the most revolutionary hair cutting method!

Living up to his aspirations, Rossano established his first salon in Parma, Italy in 1990. Fast forward to today, RF has expanded to include more than 20 internationally acclaimed hair spas in luxury destinations such as Paris, Barcelona, Bali, Los Cabos, Maldives, New York, Milano, Geneva, Dubai and Monaco to name a few! Each hair spa is luxuriously tranquil and caters to individuals who want to be treated to a serene journey experience that leaves them feeling beautiful in the hair and skin they are in. One of the key elements of their initial success was the creation of Rossano Ferretti's 'The Method', famously known as the Invisible Haircut. It was and still is a completely new concept of hair cutting and exclusively available in Rossano Ferretti Hair Spas. This method allows the designer to enhance the individual beauty of every client, customizing the haircut according to the hair type and the characteristics of the individual person, rejecting standardization and conformity. The brand has also since released a line of premium natural hair care products; a revolutionary combination of the best natural ingredients, hand-crafted by Italian hair artisans using the latest skincare technology and Italian heritage.

**SAINT CHARLES**  
APOTHECARY  
EST. 1886

Established in 1886, the pharmacy in Vienna, located between the popular Naschmarkt and the famous Mariahilferstrasse, is the historical home of Saint Charles. The historic apothecary cabinets from the time of the Austro-Hungarian monarchy, which have been preserved to this day, are not only contemporary witnesses, but rather symbols of the combination of a centuries-old tradition with a modern lifestyle. In 2006, pharmacist Mag. pharm. Alexander Ehrmann, pharmacist in 6th generation, took over the historic pharmacy and founded Saint Charles. In line with the spirit of holistic health, a natural cosmetics shop, a small spa for treatments, an organic restaurant and a health centre for therapists were established alongside the pharmacy. Based on the teachings of Traditional European Medicine, the company relies on the healing power of nature and the local herbal world. In the areas of natural cosmetics, aromatherapy and herbal medicine, Saint Charles now offers a wide range of around 400 products for holistic well-being. The company was born out of a passion for reinterpreting ancient knowledge. All products are made of natural ingredients from preferably regional cultivation in organic quality or wild collection. Bottled in high-quality brown or violet glass bottles without any outer packaging. Sustainability and social impact is part of the DNA of Saint Charles.

In addition to the Saint Charles pharmacies in Berlin and Vienna, the Saint Charles family also includes Saint Charles stores in Frankfurt and Vienna, as well as numerous partners such as pharmacies, concept shops, natural cosmetics shops, restaurants, yoga studios or aromatherapists. In addition, Saint Charles products can be found in over 50 premium hotels in Europe.

# PRIVATMISCHUNG

Inspired from a hike in local gardens, forests and mountains, the apothecary's private blend was once created. Refined for many years - yet private. The extraordinary fragrance of this journey is dominated by mountain pine and basil, elegantly combined with the tangy fruity notes of grapefruit and juniper. A sensory journey with highly effective essential oils\*. Produced in the SAINT CHARLES manufactory and seen in SAINT CHARLES pharmacies, at selected partners and in exclusive hotels around the world. Simply.Being.Private.

# WILD ROOTS

The fragrance mixture “Wild roots” tells the history of European harmony in the interaction with traditional European medicine in an unmistakable way. It contains rosemary, orange and a hint of lemon. As original as these three ingredients seem, as complex and cautious they have been combined into a “symphony” of European herbal medicine. Because here too, as in the design and appearance of our products, our credo is not “more” but “better”.

Officina Profumo-Farmaceutica  
**Santa Maria Novella**  
Firenze 1221

Since 1221 in Florence, Officina Profumo-Farmaceutica di Santa Maria Novella has been creating, producing and distributing high-end perfumes and cosmetics, as well as liqueurs and products for health and well-being, reflecting its origins as the monastic pharmacy of the Dominican friars.

This makes it in all likelihood the oldest continuously operating pharmacy in the world, still in business in the same place as at its origins.

The Officina Profumo-Farmaceutica di Santa Maria Novella is deeply interwoven with the cultural, artistic, scientific, industrial and commercial history of the city of Florence. The milestone moments of both city and company coincide: from the foundation and development of the earliest centuries in the monastery to the Medici and Lorraine grand duchies, from Napoleonic domination to the advent of the Kingdom of Italy leading to the company's transition to a private institution in 1866, then Florence as capital of Italy, the 20th century, and the most recent decades.

Each stage left a profound imprint on the Officina's identity and business, thanks to the powerful and foundational link between tradition and innovation.

# ANGELI DI FIRENZE

Officina's 2006 fragrance is an homage to the most recent history of Florence, of which we have witnessed, and of which we have been a part, for the last 800 years. The juicy peach meets the marine notes, sweetened with black currant and illuminated by jasmine. They are balanced by musk and sandalwood, and accompanied by an elegant vanilla note. Our Cologne has now lend its unique character to the precious Firenze 1221 editions of Body Cream, Bath Gel and Liquid Soap.

It was during the early 20th century, that an unprecedented innovation was on the brink of discovery. All it would take to come to fruition, would be the serendipitous encounter of these two great Parisian minds. The Chemist, a young handsome researcher, went out for a walk at the very edge of the noisy metropolis wearing his white lab coat. The 20th District was cobbled together with land and villages that at the time were outside the city limits. That part of town had always something mystical.

On that particular day the intensity of the fog was unnaturally entwined with the strange light in the clouds. The Chemist had walked that path many times on his way home from work, but only that day, in that odd misty light, did he notice an opening, something akin to a passageway in between the bushes. He decided to follow it.

With a quickened heartbeat, and an insatiable curiosity, he stepped through the gap in the bushes. A secluded garden, something the likes of which he had never seen, revealed itself at the end of the pathway. Exotic plants, flowers of any and every color. A wave of aromas, blended in the air.

"This must be the secret 21st district", he thought. Suddenly an old, stylish and Extravagant man stepped out from a shed. He wore a green velvet suit and thin glasses balanced on his nose as he carried a heavy jar. His look brought back a different era. This man was The Botanist.

The Merchant of Venice is the brand of artistic perfumery inspired by the city of Venice and its centuries-old trade with the Orient. Established in 2013, it includes exclusive collections involving a wide range of Eau de Parfum and Eau de Toilette, body-care and room products.

The concept takes its inspiration from the rich history of the city of Venice, with particular reference to the period of its maximum commercial splendor. Between 13th and 16th century, Venice became the first European power due to the mude: naval convoys organized by the Venetian Republic to trade goods from Asia to the European markets.

The trade goods included raw materials, spices, and essential oils, all of which entered the Western markets for the first time. This system allowed the development of a rich and valuable perfumery tradition in Venice.

The fragrance lines by The Merchant of Venice are the result of the skill of master perfumers who reinterpret ancient recipes from the Venetian tradition. The fragrances are enclosed in precious bottles, the colour and shape of which are inspired by the processing techniques from the millenary tradition of Murano glassmaking.

The Merchant of Venice is currently distributed in corners and shop-in-shops in the most prestigious national and international department stores, as well as in its exclusive flagship stores in Venice, Verona, Milano and Dubai, and other selected independent perfumery shops.

## TOILETPAPER

Born in 2010, TOILETPAPER is an artist's magazine created and produced by Maurizio Cattelan and photographer Pierpaolo Ferrari. Since the first issue TOILETPAPER has created a world that displays ambiguous narratives and a troubling imagination. Combining commercial photography with twisted narrative and surrealistic imagery. The result is a publication that is itself a work of art which, through its accessible form as a magazine, and through its wide distribution, challenges the limits of the contemporary art economy.

# BEAUTY COLLECTION

A collection with a unique character which conveys the passion and fun of its creators. The idea of beauty in this line starts from the image, a pleasure involving all the senses and which stimulates imagination, so that everyone can indulge in an ecstatic, perfumed and surreal world where everything is possible. Colored snakes caressing your hair. Humanoid flowers looking at you while you look after your body. Hands with lipsticks for your hands.

# Argan

Argan Oil has always been known for its nutritional and moisturizing properties. The rich notes of Black Currant mixed with the sweet scent of musk and white flowers of this Collection, regenerates the senses and the mind.

Imagine walking in a semi-desert place, where dry winds blow and the soil cracks due to the lack of water. This is where Argan plants grow. With wide and rounded crowns, dark green, leathery leaves and gnarled trunks, these remarkable trees survive the difficult conditions of the Souss plain, giving life to a precious fruit, whose oil has surprising properties.

Our Argan Oil regenerates, revitalizes and gives the skin an almost magical lightness. An unforgettable moment for the selfcare.

Extremely rich in vitamin A, vitamin E, Omega-6 and anti-oxidants, this unique oil, called “liquid gold”, comes from the kernels that grow on the argan trees native to Morocco and has been traditionally used to improve the health of skin, hair and nails. It contains a number of different beneficial properties that form a powerful combination. Between them, the use of Argan oil prevails to moisturize and treat various skin conditions, it is used to protect from sun damage and has important antioxidant effects.

In addition, La Bottega’s Argan is very effective as an anti-aging treatment and thanks to its oil’s sebum-reducing capabilities, it can help to reduce oiliness of the skin. The Collection is specifically created for soothing the body and the mind, giving the bath experience a special and very fascinating allure.

# ARGAN OIL EXTRACT
