LABOTTEGA®

Fashion, perfumery, art, design and architecture: this is La Bottega's special creative alchemy, a total Italian philosophy. The art of combining tailored solutions with modern technologies and Italian inspirations with international flair make the experience with La Bottega unique. Every masterpiece is made of details. At La Bottega we understand such philosophy and have created a very comprehensive collection of elements to decorate and complement any hotel environment. Our made-to-measure approach allows complete customization and turn-key solutions for any property: understanding the uniqueness of each property means that, in some ways, we are like a designer and tailor combined into one, cutting and sewing a custom-made dress, creating a unique, exclusive, bespoke "garment." La Bottega is a creative hub of ideas, design and production.

We are the couturiers of the hotel world.

BIOGREEN COLLECTION

MADE IN ITALY

The Biogreen collection involves the use of raw materials, textile support and high-quality polyurethanes, eco-sustainable from renewable sources. The biobased content of these polyurethanes is very high, which guarantees a lower environmental footprint compared to traditional polyurethanes obtained through fossil-derived raw materials.

RE-WOOD COLLECTION

MADE IN ITALY

The material of the DARK WOOD collection is manufactured with non-toxic water-based pigments, therefore it guarantees a perfect and safe coexistence with the environment, guarantees solidity, consistency and color intensity. These are medium density fiber panels derived from wood. MDF material is the most famous and widespread of the fiberboard family, comprising three distinct categories based on the process used and the density.

SOLID SURFACE COLLECTION

MADE IN ITALY

The solid surface Corian is a non-porous and homogeneous material, whose main component is a mineral derived from bauxite, from which aluminum is obtained. Corian offers design versatility, functionality and durability. One of the most revealing aesthetic characteristics concerns the possibility of creating monolithic elements despite being made up of panels glued together. The gluing, if done to perfection, will result to be invisible.

RESIN COLLECTION

Hard resin is a synthetic product made up of a polyester resin matrix and a mineral charge of calcium carbonate, worked in moulds. The non-porous surface, protected by a thick layer of gel-coat, can be in glossy or matt white finish. Resin accessories have a higher shock resistance, excellent flexibility and wear resistance, making them the ideal complements for the bathroom.

STONE PAPER COLLECTION

MADE IN ITALY

Stone Paper is a material with a high environmental value, made with 100% recycled paper and cardboard, with the addition of vegetable resin obtained from cashew shells. The material is characterized by elegance and functionality and responds in the best way to the principles of the circular economy. The use of natural pigments instead of chemical dyes ensures greater resistance to UV rays and stable colors.

LAV - DALLA PARTE DEGLI ANIMALI

All our cosmetic products are
LAV certified and not tested on animals.

September 2021

All brands shown in catalogue "08:30 AM - Dry Amenity & Ancillary Collections" are property of their respective owners. Their use is made with the only purpose of describing the products advertised.

La Bottega reserves the right to change, at any time, the technical specifications of any products illustrated in this catalogue and on the website www.labottega.com.

The background of the entire image is a grid of 20 rectangular windows, arranged in 4 rows and 5 columns. Each window is filled with a pair of curtains. The curtains are a light, neutral color, possibly off-white or light beige, and are hung in a way that creates soft, vertical folds. The lighting is even across the grid, with no significant shadows or highlights, giving it a clean, minimalist aesthetic.
